

Introducing Edison Towne Square

Consistent with Edison's master plan, Edison Towne Square features an exciting mix of entertainment, restaurants, stores, offices and a hotel.

Hartz Mountain Industries will donate a portion of the site to Edison for a 60,000 square foot community center with special cultural and athletic programs for youths, adults, seniors and families.

A modern circulation plan and ample parking create a delightful place to spend time with family and friends.

Hartz Mountain Industries has introduced a new version of Edison Towne Square at the site of the former Ford Plant on Route 1 in Edison. Responding to input from residents and town officials collected over the last year, this plan is under consideration by Edison's Town Council. A virtual tour of the site and additional information is available at www.hartzedison.com

Edison Towne Square's classic downtown district recalls the architecture and scale of the early 1950s.
